Junk Removal and Hauling -Enclosed Trailer Pricing-

*Due to being an enclosed box trailer, prices are typically higher for the reason of hauling, loading, and unloading; taking more time and labor. However, the value increases dramatically when it comes to having less loads for your projects. The box trailer might be a better value, **however it cannot be used** for material such as: gravel, sand, rock, concrete, large metal, beams, etc.*

Rest assured that most times we can give a break on the pricing for the minimums if your load consists of items that can be reused in a manner useful for the environment, construction, refurbishment, or recycling.
